

Just added 18th April 2020:

Maths for 5 and 6 year-old students.

Daily Dollar and Maths Lessons.

- Your students will need a book to write their answers in.
- The money is make believe!
Don't get caught providing it!!
Incentive only!! Adding practice!
- This is Daily Dollar!
Your warm-up entry may lead to something else.
- It is written at the level of your student, 5 and 6 year-old students.
- Most students will need a reader beside them.
Could be you, older student, ...
- You will notice Daily Dollar gets more challenging as the weeks go on.
- Here is a wide range of "using maths" problems.
- Enjoy! You may not get this opportunity again!!
- Best wishes.
Bill.
